

The Transparency Center is designed to provide you with the latest information about the work Congressman Campbell is doing for the 48th District of California.

Update from Congressman Campbell

As you may know, one of the glaring issues facing the 111th Congress is reform of the policy making process. This is an issue that has affected both Republicans and Democrats at the expense of the taxpayer. I hope that you will find that the information I have provided give you some insight into what I have been doing to represent the people of the 48th District.

Since I became your Congressman in 2005, I have been working tirelessly to help make government more transparent to the very people it is designed to serve. I have been a vocal proponent of earmark and budget reform, and I will continue to do so. It is my hope that you will be able to have access to all of the information that is directly relevant to the citizens of the 48th District.

Thank you and if there is anything I can do to assist you please do not hesitate to contact my office in Newport Beach or Washington D.C.

I remain respectfully,

John Campbell
Member of Congress
